SEN. REED DENOUNCES TREATY AS ENDANGERING INTERESTS OF U.S.

The National Daily

upon whether the clause involved a sanction or the application of armed force to any decision reached by "the high contracting parties" to the

They declared that the clause was

They declared that the clause was subject to as much conflicting interpretation or misinterpretation as Article X, despite the declaration of Senator Lodge at yesterday's session of the conference that the treaty did not involve any sanction.

Republican leader declared that they were not worried by the criticisms of the treaty by the "irreconcilables" nor by their threatened opposition to it, and predicted that not more than eight of ten "irreconcilable" votes would be cast against ratificavotes would be cast against ratifica-tion. They said that it was not un-likely that the "irreconcilable" oppo-sition would be reduced to as few as a

half-dozen votes.

If was admitted by the Republican leaders that Borah and his "irreconcilable" associates were quite capable of provoking a long, acrimonious debate on the treaty, but they declared that whatever opposition developed that whatever opposition developed that whatever opposition developed to ratification would be "as nothing" compared with the League of Nations fight.

Depend on Public Opinion.

The Republican leaders also assert-

ed that American public opinion would be behind ratification of the treaty, and that any efforts on the part of "irreconcilables" to stir up a national controversy over the treaty, such as raged for many months over the League of Nations, would end in dismal failure.

It was stated that the treaty would be submitted to the Senate soon, probably as early as this week, and that after being reported favorably by the Senate Foreign Relations Committee, its ratification within a comparatively short space of time was to be antici

The following comments were made on the proposed treaty by various Senators interviewed: Senator, Norris of Nebraska: "I think it is a very valuable step toward peace."
Senator New of Indiana: "It does

improved upon."
Senator King of Utah: "I think it is assembly hall. most innocuous. It scarcely goes be-yond the principle of the Bryan treaties."

have determined whether it violates the traditional American policy of noninterference in foreign political af-

Senator Weller of Maryland: "It is a very admirable document."
Senator Keyes of New Hampshire: "It is a treaty that will be beneficial

to everybody."
McKellar Also Shies. "It is very difficult to determine off-hand what the treaty really means." Senator Moses of New Hampshire "I welcome any instrument that will safeguard the world's peace." Senator Harrison, Mississippi: "It is a rewriting of part of the League

Senator Watson of Georgia: "Article two of the treaty is but article ten of the League of Nations covenent. The treaty would involve us in European and Asiatic entangleto the traditional American policy of non-interference in foreign af-

Senator Myers of Montana: very much favor its ratification by the Senate.' Senator Lenroot of Wisconsin: "It

is unquestionably a notable achievement for world peace. Senator Stanley of Kentucky: "Senator Lodge is the father of a baby League of Nations, not as big and strong a baby as the Wilson league, but bearing a striking resemblance

Senator Ernst of Kentucky: "I realong the right lines."

Early Ratification of Agreement by Senate Is Predicted By GEORGE R. HOLMES.

International News Service. With one swift stroke the four Great Powers of the world yesterday kicked the obnoxious Anglo-Japanes Alliance into the International ash-heap, and substituted a short document of 390 words, designed to end for ten years, probably for a great deal longer, the overhanging menace

of war in the Pacific. Under the terms of this new fourpowered pact, given to and approved by the world yesterday, the governents of the United States, Great Britain, Japan and France agree to respect the rights of each other in the Pacific, and not to go to war over dis-putes that may arise until they have completely threshed out the matter in

If the interests of any one of the four powers is menaced by an outsider, then the four treaty powers will "communicate fully and frankly" with one another over how this menace is to

be met and overcome. Only the attachment of signatures on behalf of the United States, Japan, Great Britian and France, and the ratification of the treaty by the necessary agencies of each government, remain to be accomplished before the

treaty becomes operative.

The actual signing will take place don Trust Company met last night to take action on the death of Mr. Din-Japan reach an agreement concerning Yap—now almost completed. Little difficulty is anticipated with regard to

The authorized spokesmen for the ments for opening the institution at four foreign powers directly concerned the time stated they felt obliged to The authorized spokesmen for the four foreign powers directly concerned formally accepted the treaty on behalf of their governments, the four minor powers indirectly concerned expressed their approval of it, and as for the United States Senate, there is no one in Washington who believes that the Senate will turn down that which its own majority leader sponsored before the world conference at its historic meeting yesterday.

the time stated they felt obliged to carry through the plans if possible. As a result it was decided to try and borrow the services of Charles D. Boyer, as acting secretary-treasurer. Mr. Boyer is now assistant cashier of the Federal National Bank, of Washington.

The directors will attend the funeral services for Mr. Dinwiddie in a body.

Withdrawal of **British Troops** in Erin Started

ALDERSHOT, Eng., Dec: 10. DREPARATIONS were begun here today for the immediate arrival of 5,000 British troops from Ireland. The biggest military depot in the United Kingdom is located here.

LONDON, Dec. 10.-It was reported from Dublin this afternoon that Cardinal Logue, primate of Ireland, will summon a meeting of bishops at Maynooth next week to recommend ratification of the Irish peace treaty.

other spring.
The Federal Horticultural Board has adjudged them a nulsance and a pest to agriculture, and ordered them plowed under and under, until they haven't the heart to rise again. CABLE TELLS OF LOVE

VIRGINIA RANDOLPH HARRISON.

Whose father, a former governor of the Philippines, has cabled friends here that his daughter will marry Christian Cross, of Chicago, next year. The marriage will take place at Algecira, Spain, the cable states.

TODAY

(Continued from First Page.) where more women than men carry freight up the hill.

From the deck of his steamer in a Chinese port Mr Rockefeller saw the ship coal bunkers filled by human labor. (So strenuous is the struggle for life and a bare living, the work was done by Chinese men and women, ten women to one man, more rapidly, according to the ship's officers, than it could be done by machinery elsewhere.)

Barges came alongside the ship. On each barge were about twenty women and two or three men. The men shoveled coal into wickerwork baskets The women stood in line from the coal pile to the hole in the ship's side passing the heavy baskets of coal from one to the other until the coal was dumped in the ship's bunker, to be turned into steam.

Steadily, hour after hour, until the work is done, women stand passing the heavy baskets -women in this country could not lift one of them. They do this work regardless of childbearing and other conditions. They MUST do it. Custom has hardened them. The women are very powerful and stand straight as they work.

All of us would be enlightened by a trip to China, including some that oppose labor-saving machinery that "takes the bread" from the mouths of workers." Also those that cut down labor's product, "to help labor." In China, according to Mr. Rockefeller, machinery, as we use it in many lines, could not compete there. Those Chinese women carry bricks up the steep hill-side at a less cost per ton than powerful trucks, highly paid drivers, expensive tires, and gas-oline could haul them (if indeed the trucks could make the grade).

The cog wheel street railway carrying passengers only, and workers by threat of riot maintaining their position as beasts of burden, indicate that wisdom the workers is not always perfect, and Chinese workers are not different from others.
